BRIEF INTRODUCTION

CHINA JOY KEYBOARDS. CO., LTD. as an enterprise of electrical products developing, manufacturing and marketing, was established in 1998 with advanced technology, excellent equipment and strong production capacity.

There are a number of reasons why Metro, Argos, Target, Tesco, Woolworths and Kmart source our musical instruments.

First, our products meet international quality and safety requirements - our products could be manufactured in strict accordance with CE & RoHS standards, and AC adaptors following GS/UL/SAA/BS Certificates.

In order to provide you with an extra level of protection, we check our goods piece by piece prior to shipment.

Second, we have 10 designers expand by several new models annually.

Third, large output rounds it out-equipped with twelve production lines, we turn out 56,000 units every month. We can have orders ready for shipping in just 20 days, and we welcome orders for as few as 200 units. Join top retailers in stocking up on our musical instruments. Inquire today.

Looking forward to be your long-term partner.
